CLOSET DOORS – CLEANER LINES FOR A BETTER FIT!

If you have the space, why not choose passage closet doors instead of bifolds?

Which offers a far better operating door system.

Closet door options span the entire gamut of interior door possibilities.

Even a typical passage door can act as a closet entrance as long as space is not an issue.

Renovating? Our door shop can customize a closet unit to replace our existing bifold openings.

Drilled for your choice of knobs, ball catches, flush bolts, active passage or dummy knob sets.
