

# ecopoxy®

ECOPOXY Resins are manufactured by ECOPOXY, a leader in the research and development of high bio content epoxy resins. Our product production, and epoxy laminating / finishing solutions for commercial, industrial, institutional, and residential applications are state of the art. Extensive laboratory and field tests, combined with years of satisfied customer use, have proven ECOPOXY to be an unparalleled high value and high performance surfacing solution.

## UVPoxy

UVPoxy will produce a high-build, crystal-clear, durable finish that resists yellowing, fading, and cracking over time. Coat and protect your surfaces with UVPoxy. UVPoxy is a crystal clear, brilliant surface that accentuates and magnifies the material below it.

## EcoPoxy Liquid Plastic Kit

Liquid Plastic cures to a clear, UV resistant, plastic-like finish that resists scratching and yellowing. Liquid Plastic is a high performance, 100% solids, two component, commercial grade epoxy formulated for a long gel time, low exothermic heat buildup, with a semi-flexible hardness that will not stress crack glass in most circumstances.

## EcoPoxy Multi-Purpose Sealer

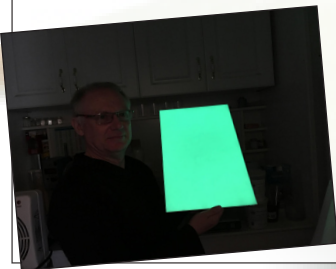

EcoPoxy Multi-Purpose Sealer will seal wood, metal and fiberglass as well as slightly damp surfaces. EcoPoxy Multi-Purpose Sealer is a fast drying two-component epoxy formulation with excellent water and chemical resistance in addition to adhesion performance and no odor during application.

## EcoPoxy Colour Pigments

Add some color to your epoxies. They are used to tint epoxy resins used as coatings, paints, gelcoats, laminating, casting or self-leveling resins.

## GloPoxy

The Most Powerful Photo-luminescence Available. GloPoxy resin system results in the brightest glow with extended glow in the dark duration.

## EcoTrowel

EcoTrowel mixes easily and spreads like peanut butter "new finish". EcoTrowel is a high performance epoxy filler and profiling product formulated for surface finishing of composite structures and more.

## EcoPoxy Metallics

Metallic Color Pigments are used to create pearlescent and iridescent effects. These unique pigments are designed to be field blended with EcoPoxy 100% solids clear epoxy binder.

## EcoPoxy Clear Resin and Hardener Kit

EcoPoxy Resin and Clear Hardener is a 100% solids crystal clear epoxy laminating systems. EcoPoxy Resin and Clear Hardener is a 100% solids crystal clear epoxy laminating systems for extreme performance and demanding visual applications including carbon fiber skinning, board manufacturing and wood finishing.
