

POCKET DOOR OPTIONS

GIVE ANY ROOM MORE SPACE WITH POCKET DOORS

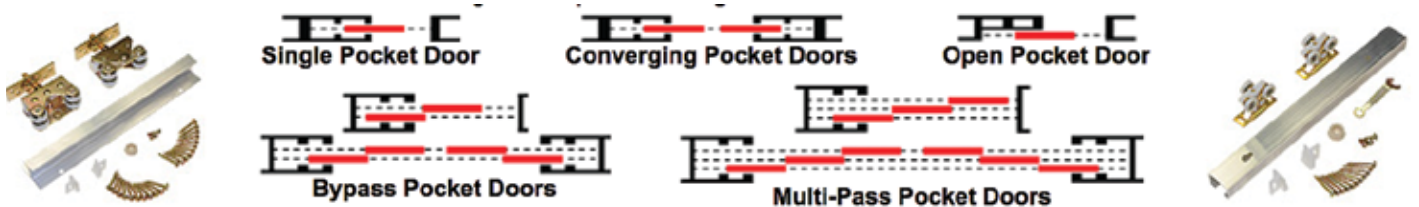

Where a "traditional" swinging door takes up valuable floor and wall space, Johnson Hardware's® Pocket Door Hardware literally "fits right in" to solve room planning problems. Johnson Hardware's® Pocket Door Hardware is designed to offer maximum space saving characteristics for a multitude of applications. Pocket Doors are particularly well suited for dining rooms, master bathrooms, wardrobes, kitchens or anywhere floor space is at a premium. The use of a pocket door will free up previously unusable wall and floor space with a clean and modern appearance.

Johnson Hardware® Commercial Grade Pocket Door Frames can be assembled and installed into a rough opening in as little as 15 minutes with professional results. Johnson Hardware® Pocket Door Frames can be easily configured for both single door operation or converging door operation and accept doors up to 5' wide x 9' tall in each direction.

POCKET / SLIDING DOOR HARDWARE ONLY (NO FRAME)

Johnson Hardware® offers a complete range of pocket / sliding door hardware designed for installers that would like to build their own pocket structure or replace old pocket door track and hardware in an existing pocket door installation. Below are just a few example configurations possible using Johnson Hardware sets.
