

NEW PRODUCT!

- POLAR PLY -

PLYWOOD: POLAR PLY

New and exclusive to Windsor Plywood in this market... Polar Ply! It's a sheet of U.V. cured acrylic prefinished two side 18mm Birch, except that it has a solid white coating in place of the usual clear finish. Not everybody wants a natural finish for their cabinet boxes and the Polar Ply will provide the clean appearance of melamine with the strength and working ease of plywood. It costs a bit more than regular prefinished because it requires extra coats of finish to get the solid white look, but it's way more economical than painting by hand.
