

WeatherLock Garden Doors

High Quality Mohair Sweep

Camlock Closers (2 per door)

Brass Plated Security Hinges (Non-Removable Pin)

WeatherLock Garden Doors are designed for easy replacement of 5V and 6V sliding patio doors (rough openings of 5Vx 80€ and 6Vx 80€) or full height (R/O 81-1/2€) for new construction.

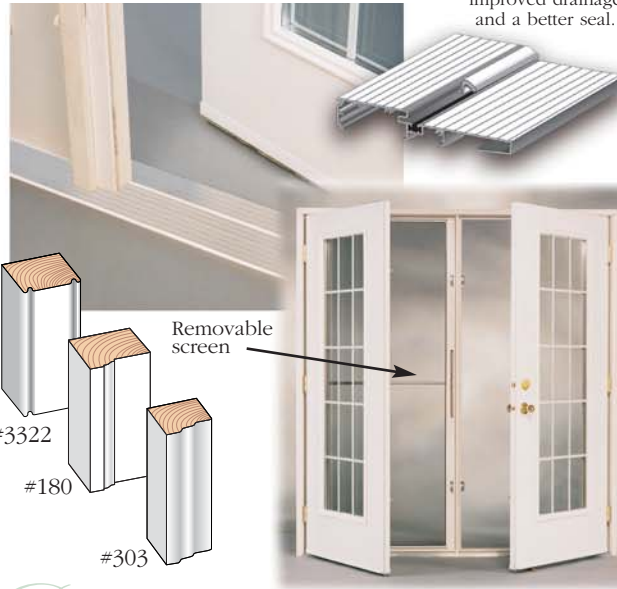

- Cam lock closers seal out the weather and improve security
- High quality hardware (white only) is used on every WeatherLock Door
- Primed #1 jamb and components
- Thermally broken all aluminum sill
- Removable screen

A unique feature of our Garden Door is a screened ventilation door. Simply turn the crank handle to extend or retract the door. Hardware can be detached from the door and the interior screen removed to allow full swing out operation.

Our innovative NEW sill design provides better run-off for rain and moisture as well as reducing the gap between the door and sill making your home more energy efficient. *Also available in brown anodized finish.

Twin slope sill for improved drainage and a better seal.

Premitred brickmould sets are available with every Garden Door for your convenience.

FEATURES

- Convenient “open out” doors don't reduce available floor space in your home.
- An Easy-to-Use crank handle operates one door providing controlled ventilation.
- Double cam lock closers lock each door creating a secure weather-tight seal.

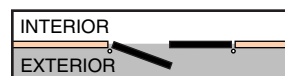

OUTSWING

Right-Hand Active

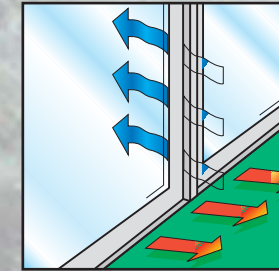

Left-Hand Active

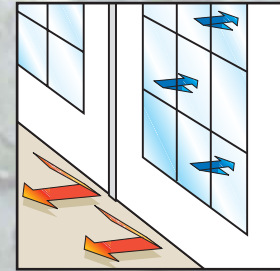

ENERGY EFFICIENT

- Air tight positive seals around door perimeter provide for maximum energy conservation.
- Insulated steel doors provide much better R-value than aluminum frames typically found in sliding glass doors.
- Controlled ventilation with 1 or both doors open

Sliding glass doors are drafty and allow heat to escape through the cracks and gaps between and below the doors.

WeatherLock Garden Doors reduce heat loss by providing air tight positive seals around the complete door perimeter.

White Internal Grid

Optional Internal Mini Blind Shown

DECORATIVE OPTIONS

WeatherLock Garden Doors may be ordered with optional internal mini blinds or a variety of glass insert styles such as clear or grids, (brass or white). See glass options on the back page for more information.
